FOR THOSE
WHO DARE TO
CATCH BIGGER FISH!

The Future is Savage...

Savage Gear lures are the result of a team of worldwide anglers that approach each day on the water with uncommon ambition and a driving desire to take down the largest predatory fish in the water. The attitude is less about sharing a beautiful day fishing and much more about total domination of a water body.

Logging hundreds of thousands of hours with a fishing rod in hand, their experience is translated into swimbait, crankbait and soft plastic lure actions. The goal is savage strikes - strikes carried out with complete, absolute and total commitment from the fish to kill and eat the lure.

- Air filled claws.
- Air filled head cavity makes the craw float.
- Exaggerated antennae and legs for lifelike action on either a forward drag or tail first retrieve.
- Available in the hottest bass catching colors.
- Two key fish catching sizes 3" and 4 3/4".
- Iodine, Salt and Scent enriched soft PVC material.

The Savage Gear 3D Craw brings together an ultra-realistic bait coupled with air filled claws and carapace for the ultimate in natural underwater movement. The crawfish is a favorite meal of multiple game fish wherever they inhabit the same waters, and the Iodine in crayfish makes them a staple meal for a big female bass's egg development and that is why we infused these baits with Iodine, salt and crawfish scents. This bait is excellent for Carolina rigging, stand up jig heads, or for fishing weedless on a weighted hook over heavy weed mats and then paused in openings for a slow enticing fall.

Stealth Spike

- Stealth spike is inserted into the bait just behind the legs, with the wire just sticking out of the mouth of the 3D craw.
- This enables you to rig the craw for forward dragging for the most natural presentation of a crawdad.
- Super sharp, super strong hooks for the strongest of gamefish.
- Stand up jig head is used to fish the 3D craw in a defensive "claws up" posture.

TPE 3D Manic Shrimp

Inshore saltwater sport fish see more specialized angling pressure today than any time in History. For this reason Savage Gear set out to make one of the most life-like shrimp baits possible in both looks and underwater movements to trigger these pressured fish into biting. To create the ultimate bait we started with the real thing; actual shrimp, which were then 3D scanned to create the most detailed shrimp lure possible.

- Based on 3D Scans from a Real Shrimp.
- Specially designed tail for life like kicking action.
- Ultra-realistic paint jobs perfectly mimic many shrimp species.
- Exaggerated legs and antenna for life like actions on the fall or retrieve.
- The tail section is infused with Nylon mesh to help prevent tearing on the hook set or from short bites.
- Available in 3 sizes, 2½", 4" and 5"
- Rigged with a weighted ultra-sharp EWG hook.

TPE Panic Shrimp

With its solid tail design and TPE construction, the TPE Panic Shrimp was designed to be the toughest shrimp bait available. The pre-drilled hook channel goes all way through the bait so you can rig the shrimp either forward or backwards. This bait excels under a popping cork or the specially designed Savage Gear stand up jig head.

- Based on 3D scans from a real shrimp.
- Ultra-realistic paint jobs perfectly mimic many shrimp species.
- Exaggerated antenna for life like action on the fall or retrieve.
- Exaggerated legs for fluttering action on the fall.

Savage 3D Shrimp

Savage Gear was the first company to combine 3D scanning with real fish models. Now we bring inshore anglers this same technology with the Savage 3D Shrimp. To bring this lure to life we equipped it with exaggerated antenna and legs for the ultimate shrimp like movements of the fall and retrieve. The Savage 3D shrimp can be fished under a popping cork, on a jig head, or weedless style in and around structure.

- Available in the most proven fish catching colors.
- Based on a 3D scan of a live shrimp.

The 3D Line Thru Swimbait is simple to rig up. Simply pass the main line thru the nose of the bait and out of the back, and tie on a 1/0 or 2/0 treble hook. Finish by placing one of the hooks into the back of the bait, making sure to seat the shank into the hard channel of the internal harness. The hook should fit snugly in the hard "channel" of the harness to prevent ripping the hook out of the bait.

3D Hollow Body Frog

3D scanned from an actual frog the Savage Gear 3D Frog draws viscous strikes from multiple species of game fish. Available in two leg styles: an open leg twitching style frog and a curled leg “buzz” frog style for fishing sparse cover. The extra strong hook can easily pull big bass from heavy cover without bending. Super soft body allows for easy compression for a higher strike to hook up ratio. Available in the top fish producing colors.

- Ultra life-like paint jobs.
- Features back legs just like a real frog.
- Two leg styles featuring a spread leg imitation for twitching, and curled leg reaction lure design.
- Belly details that the fish actually see.
- Designed to pull fish from the heaviest of cover.
- Optimized hook up rate, with ultra-sharp single hook configuration.

Fat Vibe

The Fat Vibe lipless crankbait was designed to fish the entire water column drawing strikes from a great distance. The distinct rattling noise and exaggerated belly makes the Fat Vibe deadly on a lift and fall retrieve. The Fat Vibe does not spiral down on the fall like most lipless crankbaits, but rather has a side-to-side swimming action on the fall. Available in the hottest colors with high quality, super sharp hooks.

- The Fat Vibe is a lipless vibrating crankbait designed to fish the entire water column quickly and efficiently.
- Designed to fish on a lift-and-fall, or steady retrieve.
- Unmatched swimming action on the fall.
- Designed with high quality hardware and available in the hottest fish catching patterns.

3D Glide Swimmer

The Savage Gear Glide Swimmer has been under development for the past two years, as it was tuned and adjusted to have the most natural gliding action of any bait in this category. The super slow sinking action and continued gliding action on the pause makes this the perfect bait for big bites on a twitch and pause retrieve.

- Seductive "S" pattern swimming action.
- Slow sinking sink rate for long pauses on a twitch retrieve.
- Available in the hottest colors on the market.
- Two fish catching sizes: 5 1/4" and 6 1/2"
- Super premium ultra-sharp hooks and split rings.

Freestyler

This slow sinking glide bait has been a proven fishing catcher in Savage Gear Europe's line up for years, and now we are bringing it to the U.S. The Freestyler is meant for power fishing to cover water quickly while drawing strikes from aggressively feeding fish. Whether on a fast retrieve or a twitch-and-go retrieve this bait gets bit. Through-wire construction, heavy split rings and high-quality treble and single hooks make sure fish stay buttoned on once hooked.

- Long casting one-piece panic glide bait.
- Great on a fast retrieve or stop-and-go retrieve.
- Rigged with premium ultra-sharp hooks and split rings.
- Designed to cover water quickly for aggressive fish.
- Each bait comes rigged with premium treble hooks with single hooks included in package.

Sandeels Slugs

In our effort to develop a program for saltwater lure fishing, we designed a series of ultra realistic sandeel slugs that have a solid front body and a hollow tail section that makes the LB lure float. The solid front body, makes a perfect hook hold. The hollow body collapses when the fish engulfs it which ensures a better hookup rate. The lure can be fished on an offset hook, on a weedless rig tuned with weight to have any sink rate desired, or it can be fished cut off behind the eyes, on our sandeel jig heads, to make the most amazing darting action. The lure is also great for drop shot and vertical jigging. Brilliant details and swimming action. Excellent for Cod, Striped Bass, Caligo Bass, Snook and even smaller Halibut. Also superior for small- and large mouth bass.

Sandeels

This stunning and unique lure is a supernatural sand eel imitation. The Sand eel is the favourite snack of many predators. These soft-bodied lures have a strike enticing swimming action that is second to none. The sand eel is Savage Gear's first 100% saltwater specific lure. Designed mainly for vertical fishing, this bait has also proven deadly when trolled or casted. The swimming action is so lifelike; you have to see it to believe it. Top quality Japanese carbon steel saltwater grade hooks can withstand brutal attacks and land big predators. Excellent on Cod, Striped Bass, Bluefish, Calico Bass and halibut.

Micro Sandeel and Slug Kits

Double Rig Instructions:

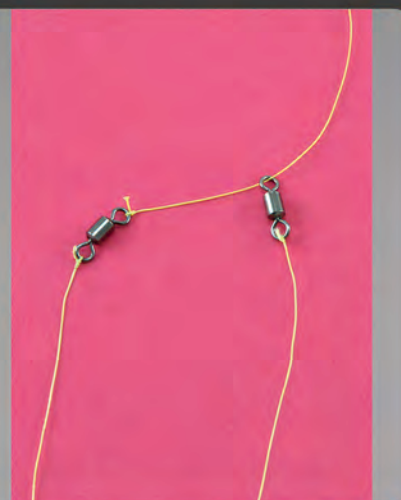

1.

Take two jig heads and tie a leader to each, making sure one is longer than the other by 2 inches or so. Then tie a barrel swivel to each one.

2.

Next, pass your main line thru the eye of the swivel of the jig head with the shorter leader. Then tie directly to the swivel of the jig head with the longer leader.

3.

This is what it should look like. The jig head with the shorter leader should be free to slide up and down the main line. The different lengths will prevent tangles while fishing.

3D Hard Eel

Musky and Pike anglers have been using soft PVC baits to catch big fish for years. The drawback is a bait may only last one fish or one bite. Introducing the Savage Gear Hard Eel, a hard body bait with replaceable tails. Each bait comes with two soft tails; a small tail that lets the bait have a side to side darting action on a twitch retrieve, and a big tail for straight, or stop and go retrieves to call fish from longer distances. With the curve of the large tail facing down the Hard Eel is a great subsurface bait. Turn the tail 180 degrees and the bait becomes a surface wake bait even at slow speeds.

- Based on a 3D scan of an actual eel.
- Hard body with replaceable tails.
- Short tail for a side to side gliding bait on a twitch retrieve.
- Long tail for straight retrieve. Tail facing down will give a slow sinking bait.
- Rotate the tail 180 degrees so the tail is facing up for a slow winding wake bait.
